

# *Salt Spring Coffee* **OUR STORY**

Salt Spring Coffee was born back in 1996, when Mickey McLeod and his wife Robbyn Scott began roasting coffee beans in a converted popcorn maker at their Salt Spring Island home on Canada's West Coast.

Today, Salt Spring Coffee is one of Canada's largest and most respected macro-roasters. Our eight classic coffees are available in more than 1,200 cafés, restaurants and grocery stores and enjoyed in homes across the country.

Two decades later, we're still organic, still fair to farmer, still changing the world one cup of a coffee at a time.

*We are a B Corp.*

A Certified B Corporation since 2010, we are the only coffee company in Canada to be named "Best for the Environment"—not once, but twice.

*We are fair to farmers.*

We work directly with coffee growers and are "Fair for Life" certified by the Institute for Marketecology to ensure fair-trade practices at every stage of production.

*Our coffee is 100% organic.*

All of our beans are certified organic by the Canadian Food Inspection Agency through the Pacific Agricultural Certification Society.
