

Mill Creek Coffee is a locally owned, 100% Canadian coffee service company that has been operating in our lower mainland for many years. We believe in providing Coffee Service not just Coffee Supply. On the West Coast our lifestyle is unique and we have tailored our products and services to embrace that.

At Mill Creek Coffee we are very conscious of the footprint we make on our fragile environment by our products and practices. Throughout this menu you will see the choices we offer to assist our customers in being "GREEN."

In addition we have taken steps at our office to fully recycle all garbage, plastic, and cardboard used in our business. We believe each of us can play a part as global neighbours.

Our people are our strength: focused, committed, and enthusiastic about two things

- * Quality products
- * Excellent service

We are small enough to respond to our customers and large enough to provide the highest level of service.

We are members of the Vancouver Board of Trade and sponsors of the "Leaders of Tomorrow" mentorship program.
