

MILL CREEK
COFFEE COMPANY

.....Spills the beans

Mill Creek is Now Happy to offer.....

The Future of office coffee is here today! We are proud to now feature the Lavazza LB 2317 Espresso brewer, complete with a milk fridge to make the perfect latte or cappuccino. The capsule based system makes great short, long or Americano espresso beverages. These capsules are 100% recyclable and so you can feel good about the drink you enjoy. Compact and using regular electricity it is a great fit for any office.

Premier providers of these fine brands

WHATS NEW

CHERRY HILL COFFEE

Mill Creek is proud to offer our customers another locally roasted coffee brand, Cherry Hill Coffee.

Founded in Kelowna in 1986, as a specialty coffee roaster.

Cherry Hill says: We like to think that every day for the last three decades, our roast gets just a little bit better.

We pay a fair price for premium Arabica green coffee beans from around the world and hand roast in small batches in the crisp, clean air of the Okanagan Valley.

Every roast is infused with a sense of the west coast; laid back, but not lazy; crisp as the mountain air - yet as smooth as fresh powder.

Have you heard of B– Corp?

Coffee & Geo-Political Strife

Politics, whether you want to talk about it or not, affects us all. Particularly is that true if politics leads to civil unrest, civil war or strife.

Coffee, whether you like it or not is affected by geo-political strife.

Political instability, such as we are seeing today in Yemen, Columbia, and Egypt and other countries means several things when it comes to coffee production.

With these conflicts, crops are quite frequently damaged. Additionally farmers caring for the soil, plants and production, are unable to work.

Both Production and exporting coffee becomes an issue as well.

For example the New York Times reported that “during the armed conflict in Columbia, coffee production fell by 40% and that was due to the Guerillas occupying only one area of production, San Carlos.

Sorry to talk politics but it affects the coffee we love so it affects us all. Go and enjoy a cup while you still can.

Certified B Corporations are businesses that meet the highest standards of verified social and environmental performance, public transparency, and legal accountability to balance profit and purpose.

The B-Corp concept was created to affect change in the world, in areas such as poverty, poor working conditions, graft greed and corruption. This movement has been in place in the coffee industry for some time with Fair Trade, trying to help the farmers.

However the B Corp community takes it a step further, working toward reduced inequality, lower levels of poverty, a healthier environment, stronger communities, and the creation of more high quality jobs with dignity and purpose. B-Corp believes that by harnessing the power of business, B Corps use profits and growth as a means to a greater end: positive impact for their employees, communities, and the environment.

Mill Creek offers coffee from suppliers such as Reunion Island, Ethical Bean and Salt Spring Coffee—All B Corp Certified

Not just another water cooler.....

Did You Know:

- ◆ 2.7 million tons of plastic are used each year to bottle water with more than 85% of bottles becoming garbage, filling landfills.
- ◆ It can take up to 450 years for water bottles to decompose
- ◆ Available in countertop, bottled, room, cold or hot temperature.
